

DAVID WIESE

Software Engineer

SUMMARY

Solutions-oriented problem solver. Creating modern frontends that enhance the customer experience, while also prioritizing the needs of the business on the backend.

WORK EXPERIENCE

Founding Engineer at Trip Report

January 2024 — Present

Conceptualized, designed, and developed [Trip Report](#) – a comprehensive full-stack web application for outdoor enthusiasts to create, share, and discover detailed trip reports. Solely responsible for all aspects of the project, from initial concept to MVP launch, demonstrating strong technical skills and entrepreneurial drive. Designed key features and integrated third-party services. Gathered feedback and conducted user testing. Iterated on the app based on real-world use cases. Managed the entire product lifecycle from planning and design to deployment and maintenance.

Software Engineer at Summit Consulting

September 2021 — August 2024

- Developed comprehensive full-stack web applications and static websites for a diverse array of clients within the small and medium-sized business sector. Built collaborative partnerships and delivered precisely tailored solutions to meet their unique business needs.

Example Client:

- [Sean Fitzpatrick Photography](#) – Custom static website built to client's specs, increased appointment bookings by over 100%

Software Engineer at 100Devs

October 2020 — September 2021

- Spearheaded the development of responsive full-stack web applications while identifying and resolving three major bugs contributing to application crashes, ensuring optimal performance for an increased user base exceeding 65,000 active monthly users.
- Managed a 5-member cross-functional team and coordinated with business partners to launch over 10 successful MVPs.

Example Project:

- [Pocket Money \(Fullstack Web App\)](#) – Effortlessly track daily spending, set goals, and gain financial clarity. Your key to smart, stress-free money management.

OPEN SOURCE

Hack for LA

[Expunge Assist](#) – TypeScript web app that aims to help people with non-violent criminal records accomplish record clearance, expungement, or a reduction of their sentence
